

Protecting the health and safety of our clients, community, and employees

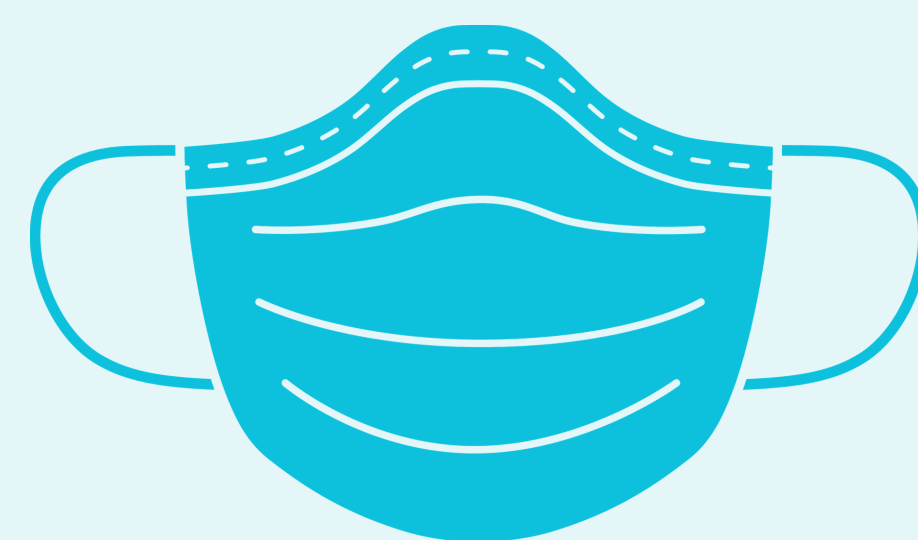

Social Distancing

Foot markers facilitating 6-foot social distancing and directing traffic flow are in place. Traditions like handshakes have been suspended.

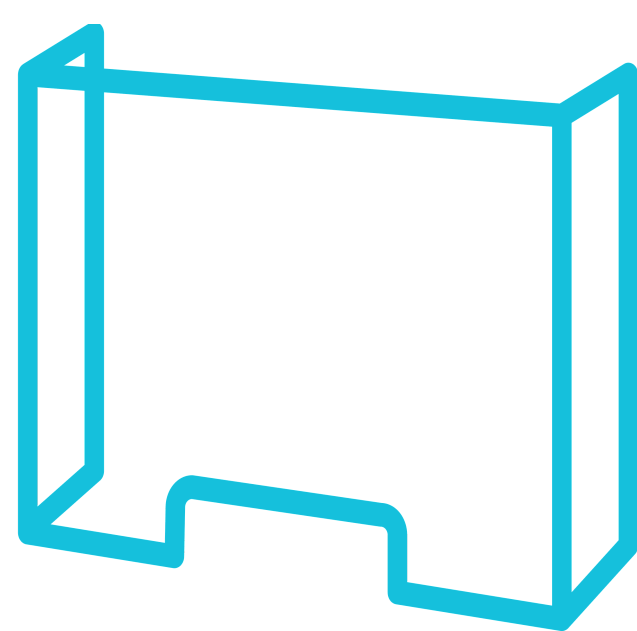

Face Coverings

For your safety, we request the use of face coverings while in our branch locations. All employees are required to wear face coverings. Please remove all other hats, hoods, and sunglasses before entering.

Plexiglass Shields

Barriers are in place at our teller stations, personal banker and branch manager desks.

Monitoring Client Access

We are limiting our lobby traffic to 3 customers at any one time, and you may be asked to present identification before entering.

Digital Options

Contact our branch locations to schedule a virtual appointment. Utilize the CIBM Bank app and electronic banking options.

Increased Sanitation

We have enhanced our cleaning and disinfecting protocols with increased cleaning services and cleaning of high touch areas throughout the day.

Employee Health Screenings

Employees are required to complete a daily health assessment. Colleagues who are not well will be required to stay home until they are feeling better.
